## PRESS RELEASE

### FOR IMMEDIATE RELEASE

Lephalale Municipality, in line with its vision of providing an environment where informal business can operate according to by-law regulations, implemented the next phase of the Hawker stall project early in May 2016. A contractor was appointed to pave the area adjacent to Albert Street. This is only one of several phases of a project which was approved by council in 2013.

The new paving will ensure that the area is easily accessible for local residents and will ensure a cleaner environment in which hawkers can continue to trade. The project should be completed within the next three months and will greatly improve the image of this part of the Lephalale CBD. The newly paved area will further ensure that hawkers trade in a safe and clean environment.
