## PRESS RELEASE

### FOR IMMEDIATE RELEASE

The Mayor of Lephalale, Cllr Jack Maeko officially launched the Water supply enhancement programme in Marapong, on Tuesday, 4 August. As part of the programme, twenty two 10 000L water tanks have been installed to enhance water supply to the informal settlements in and around Marapong. Industrial development as well as the promise of future developments in the area has seen the mushrooming of informal settlements and major population growth in Lephalale. In order to comply with government's mandate to deliver services to all communities, the LLM council approved the project which will temporarily address water shortages in Marapong. The water tanks will enable the Municipality to curb water loss in informal settlements as well as reduce illegal connections. Water tankers will be used to fill the tanks on a daily basis, ensuring that residents have enough water every day.
