PUBLIC NOTICE

MANAGEMENT OF CONSTRUCTION AND DEMOLITION WASTE

It has come to the attention of the municipality that some members of the community are disposing construction and demolition waste on vacant land around Town, Onverwacht and Marapong.

According to Chapter2, Part5, Section 21 (1-4) of the municipal waste by-law:

1. The owner of the premises on which construction and demolition waste is generated must ensure that:
 - a. Until disposal, all building waste, together with the containers used for the storage, collection or disposal thereof, is kept on the premises on which the waste was generated; and
 - b. Pursuant to any instructions from the municipality, any structure necessary to contain the building waste is constructed.
2. The occupier of the premises on which building waste is generated may himself or herself dispose of the waste or must ensure that the waste is collected and disposed by a waste collector registered with the municipality for this purpose.
3. All building waste must be disposed at a waste disposal facility designated for that purpose by the municipality, unless the municipality has given a written consent for the building waste to be used for the purpose of land reclamation or for recycling.
4. Any person who contravenes a provision of this section commits an offence.

All members of the community are kindly requested to refrain from disposing construction and demolition waste on vacant land as this practice has negative effects on the environment and the community.

For enquiries, please contact Waste Management division on (014) 762 1432/85.

Your co-operation will be highly appreciated.
