

30 JUNE 2025

ELECTRIFICATION AT VARIOUS VILLAGES

The Lephalale Local Municipality has made significant progress in its electrification project, having electrified 577 households since the 2022/2023 financial year.

Despite initial technical issues which the municipality has resolved amicably, 521 households have been energized across various villages, including:

- Lerupurupung
- Steve Biko Ext 4 phase 2
- Delaange/Marikana
- Hlagalakwena
- Botshabelo
- Kauletse
- Kopanong
- Maeteletja

The municipality is working to assist homeowners with key change tokens, enabling them to purchase electricity units. This process is expected to be completed by June 30, 2025. The last village, Himini, was initially scheduled for energization on May 4, 2025.

Current Status:

- Total Households Electrified: 577
- Households Energized: 521
