

10 APRIL 2025

ESKOM-MEDUPI FOOD PARCELS HANDOVER

On 10 April 2025, Lephalale Local Municipality, represented by Ward Councillors Cllr Lesibana Monare and Cllr William Motlokwa, collaborated with Eskom-Medupi and the Department of Social Development for a community outreach initiative in Marapong township.

The outreach program initiative consisted of providing food parcels to designated beneficiaries residing in child-headed households.

Cllr Monare expressed gratitude to Eskom for the initiative, noting that this community-focused effort underscores the significance of cooperation between local government and key partners such as Eskom-Medupi, as they join forces to deliver vital services and assistance to those who require it.

The event held at the Marapong Library was attended by officials from Eskom Medupi, municipal officials, and representatives from the Department of Social Development.

Mr. Rofhiwa Nemutandani from Eskom stated that this initiative seeks to reduce hunger, provide joy and hope to those in greatest need, and also to demonstrate kindness and compassion to families requiring support.

Eskom collaborated with the Department of Social Development to identify vulnerable households in need of support. This collaboration sought to guarantee that deserving orphaned and child-led households received support from the food parcel program.
