## **LEPHALALE STAKEHOLDERS ENGAGEMENT FORUM MEETING**

The Lephalale Local Municipality recently held its inaugural Lephalale Stakeholder Engagement Forum (LSEF) for 2025 at the Mogol Function Hall. The main emphasis was on examining and approving revised terms of reference for the LSEF, especially the empowering clauses for its Sub-Committees.

Acting Mayor Cllr Joseph Machaba highlighted the significance of united involvement, expressing that "everyone needs to contribute" for the LSEF to operate successfully. This highlights the municipality's dedication to engaging stakeholders and involving the community in decision-making processes.

One of the primary goals of the LSEF is Community Participation, which will help promote collaboration among the municipality, stakeholders, and community members.

The LSEF acts as an essential forum for stakeholder engagement, as detailed in Chapter 4 of the Local Government. Through interaction with the community and stakeholders, the municipality seeks to enhance participation and foster inclusive development.
